West Virginia Utility Assistance Program

Dollar Energy Fund's **West Virginia Utility Assistance Program** assists eligible utility customers with their gas, electric and water bills. Eligible customers receive a one-time grant applied directly to their utility bill. Our program is a fund of last resort because it goes above and beyond what is available through federal, state and other programs. The West Virginia Utility Assistance Program provides grants to qualified utility customers on a first come, first serve basis while funding is available and eligibility requirements vary based on the utility company. **Program guidelines and eligibility requirements are subject to change.**
